## Records of the Annual Town Meeting held in Snow's Hall, Millis, Mass., Monday evening, February 21, 1927

Meeting opened by Moderator Rudolph F. King, at 7.45 P. M.

Article 1. To choose a Moderator for one year, a Town Clerk for one year, a Town Treasurer for one year, Two Constables for one year, One Auditor for one year, One Tree Warden for one year, One Selectman for three years, One Overseer of the Poor for three years, One Assessor for three years, One School Committee for three years, One Trustee of Public Library for three years, One Cemetery Commissioner for three years, One Park Commissioner for three years, One Sewer Commissioner for three years, One Tax Collector for one year, one Water Commissioner for three years. All the above to be on one

Article I of the Town Warrant having been acted upon at the meeting held Monday, February 14, it was at this time passed and Article 2 acted upon.

Art. 2. To hear and act on the reports of Town Officers and Committees

Voted that the several reports of the Town Officers and Committees be acted upon separately as found in the Town Report for year 1926.

All reports taken up separately and in each case voted

that they be accepted as printed.

Article 3. To see if the Town will appropriate the sum of \$2240.02 to pay bills of Attorney and Engineers in deference of the Sewer Assessments, or act in any manner relating

Voted that the Town appropriate the sum of \$2240.02 to pay bills of Attorney and Engineers in deference of the Sewer Assessments.

Art. 4. To see if the Town will appropriate money to extend the Sewer System with two additional sewer beds and a drainage ditch. To meet said appropriation there shall be raised in the current year's levy the sum of \$1,000 and that the Treasurer with the approval of the Selectmen be and hereby is authorized to issue notes to an amount not to exceed \$14,000, payable in accordance with the provisions of Chapter 44 of the General Laws, said amount to be paid in not more than 14 years from the date of issue of the first note or bond issued or such earlier dates as the Treasurer and Selectmen may determine, or act in any manner relating thereto.

First, voted not to dismiss the Article. This vote being doubted, it was voted by rising count "yes" 83, "no" 72, that the Article be dismissed. The count on this vote being doubted, it was again voted by rising count "yes" 97, "no" 85, and the Article was finally voted to be dismissed.

Art. 5. To see if the town will appropriate the sum of \$2500.00 for the maintenance of law and order, or act in any manner relating thereto.

Voted that the sum of \$2500.00 be appropriated for the maintenance of law and order.

Art. 6. To see what action the Town will take in assess ing any part of the Sewerage Installation, in accordance with Chapter 129, Special Acts 1918, or act is any manner relating thereto.

Voted to dismiss the Article.

Art. 7. To see what disposition the Town will make of the money refunded by the county on account of dog licenses.

Voted that the money refunded by the County on account of dog licenses be used for library purposes.

Art. 8. To appropriate money for all necessary town expenses, including a sum sufficient to pay all town officers'

\$2,602.50 to be taken from Sewer Assessment Funds, leaving net sum \$17,170.00.

Art. 9. To see if the town will vote to appropriate a sum of money for special repairs on such streets as are selected by the Massachusetts Highway Commission acting in conjunction with the State and County, or act in any manner relating thereto.

Voted Yes 105, No 1, that the town appropriate \$10,000 for finishing Main Street from present line of new construction to the Medfield Bridge, providing the State and

Art. 10. To see if the town will appropriate the sum of \$300.00 toward the support of the District Nurse, or act in any manner relating thereto.

Voted that the sum of \$300.00 be appropriated for the support of the District Nurse.

Art. 11. To see if the town will vote to appropriate the sum of \$746.42, said sum being the portion of the expense incurred and apportioned by the County Commissioners for the care and maintenance of the Norfolk County Hospital, or

act in any manner relating thereto.

Voted that the sum of \$746.42 be appropriated for that portion of the expense incurred and apportioned by the County Commissioners for the care and maintenance of the Norfolk County Hospital.

Art. 12. To see if the town will vote to appropriate the sum of \$1,438.02 for the suppression of the Gypsy and Brown Tail Moth and Elm Leaf Beetle, or act in any manner relating thereto.

Motion made that the sum of \$1,000.00 be appropriated for the suppression of the Gypsy and Brown Tail Moth and

Elm Leaf Beetle.

Motion amended to raise the appropriation to \$1500.00.

Amendment lost.

Voted to appropriate the sum of \$1,000.00 for the suppression of the Gypsy and Brown Tail Moth and Elm Leaf Beetle.

Art. 13. To see if the town will vote to appropriate a sum of money for the Tree Department, or act in any manner relating thereto.

Voted that the sum of \$500.00 be appropriated for the

Tree Department

Art. 14. To see if the town will vote to purchase new Fire Hose for the Fire Department, appropriate money for the same, or act in any manner relating thereto.

Voted that the sum of \$2,000 be appropriated for the

purchasing of new fire hose for the Fire Department.

Art. 15. To see if the town will vote to appropriate a sum of money for the use of the Board of Health, or act in any manner relating thereto.

Voted that the sum of \$500.00 be appropriated for the

use of the Board of Health.

Art. 16. To see if the town will vote to appropriate a sum of money for the use of the Park Department, or act in any manner relating thereto.

Voted that the sum of \$375.00 be appropriated for the

use of the Park Department.

Art. 17. To see if the town will vote to appropriate a sum of money for repairs on Spring Street from Main Street to Plain Street, also to install another electric light on said street, or act in any manner relating thereto.

Motion made that the sum of \$300.00 be appropriated for

repairs on Spring Street.

Motion amended and carried to read \$800.00 instead of \$300.00, and that an electric light be installed in front of Mrs. McDonough's residence, by a rising vote "Yes" 64, "No" 19.

Voted to appropriate the sum of \$800.00 for repairs on Spring Street and that an electric light be installed near the

residence of Mrs. McDonough.

Art. 18. To see if the town will vote to install an electric light at the junction of Main and Village Streets, or act in any manner relating thereto.

Voted to dismiss the Article by rising vote "Yes" 40,

"No" 27.

Art. 19. To see if the town will vote to install an electric light on Village Street near the residence of Edward Kelley, or act in any manner relating thereto.

Motion made to dismiss the Article.

Substitute motion offered that an electric light be installed near the residence of Edward Kelley, which did not carry by rising vote "No" 45, "Yes" 19.

Voted to dismiss the Article.

Art. 20. To see if the town will vote to install four (4) electric lights on Farm Street, or act in any manner relating thereto.

Motion made to dismiss the Article.

Art. 27. To see if the Town will vote to appropriate the sum of \$500.00 for repairs on Causeway Street, or act in any manner relating thereto.

Voted that the sum of \$300.00 be appropriated for repairs

on Causeway Street.

Art. 28. To see if the Town will vote to change Chapter 7, Section 1 of the By-Laws so as to read, "All taxes assessed in each year shall be payable on the 15th day of October in the same year and on all taxes not paid on or before the first day of November, interest will be charged at the rate fixed by law."

Voted to change Chapter 7, Section 1 of the Town By-Laws so as to read "All taxes assessed in each year shall be payable on the 15th day of October in the same year and on all taxes not paid on or before the first day of November,

interest will be charged at the rate fixed by law."

Art. 29. To see if the town will vote to amend Section 4 of Chapter 1 of the Town By-Laws as follows: By striking out Two Hundred Dollars and replacing One Thousand Dollars so it will read as follows;

"No appropriation of One Thousand Dollars or more shall be made at any Town Meeting, other than the annual meeting, unless there are present at the time of said appropriation at least 15% of the legal voters of the Town.

Motion made that the Article be dismissed.

Substitute motion offered that this Article be passed as worded was not carried.

Voted to dismiss the Article.

Art. 30. To see if the Town will vote to amend Section 4 of Chapter 4 of the Town By-Laws by striking out 15% and replacing 10% so it will read as follows:

"No appropriation of Two Hundred Dollars or more shall be made at any Town Meeting, other than the annual

meeting, unless there are present at time of said appropriation at least 10% of the then legal voters of the Town."

Voted to dismiss the Article.

Art. 31. To see if the Town will vote to appropriate a sum of money to take care of the Town Dump at the junction of Village and Forest Streets, or act in any manner relating

After discussing the Article and being assured that the Selectmen would see that the Town Dump was properly taken care of, it was voted to dismiss the Article.

Art. 32. To see if the Town will appropriate the sum of \$2,063.00, two thousand and sixty-three dollars, to purchase a Fordson Tractor with full Crawler Wheels, Sargent Snow Plow Cab, Lights and fully equipped suitable for snow removal, or act in any manner relating thereto.

Voted to dismiss the Article.

Art. 33. To see if the Town will vote to authorize the Selectmen to appoint a Committee to investigate the advisability of establishing a Town Forest, or act in any manner relating teereto.

Voted to dismiss the Article.

Art. 34. To see if the Town will vote to appropriate the sum of \$900.00 for special repairs on Irving Street, or act in any manner relating thereto.

Voted that the sum of \$900.00 be appropriated for special repairs on Irving Street.

Art. 35. To see if the Town will vote to appropriate a sum of money sufficient to pay all unpaid bills to January 1, 1927, or act in any manner relating thereto.

Voted to appropriate the sum of \$2,003.70 to pay all unpaid bills to January 1, 1927.

Article 36. To see if the Town will accept the Street from Exchange Street to Ridge Street bordering the Slayton

and Cunningham Farms, as laid out by the Selectmen, or act in any manner relating thereto.

Voted that this Article be dismissed by rising count

"Yes" 42, "No" 38.

Art. 37. To see if the Town will appropriate the sum of \$3,307.31, as assessed and apportioned upon the Town of Millis as its proportionate share of the expense for the construction of the Forest Street Bridge.

Voted that the sum of \$3,307.31 as assessed and apportioned upon the Town of Millis as its proportionate share of the expenses for the construction of the Forest Street Bridge be appropriated.

Article 38. To see if the Town will appropriate a sum of money to pay land damages on Middlesex Street, the same to be reimbursed by the County, or act in any manner

relating thereto.

Voted that the sum of \$400.00 be appropriated to pay land damages on Middlesex Street, the same to be reimbursed by the County.

Art. 39. To see if the Town will appropriate a sum of money for Memorial Day, or act in any manner relating

thereto.

Voted that the sum of \$200.00 be appropriated for Memorial day, and that the Moderator appoint a committee to act as a Memorial Day Committee.

Art. 40. To see if the Town will appropriate a sum of money to be used in conjunction with the State Highway Commission under Chapter 81 of the General Laws, or act in any manner relating thereto.

Voted to reconsider that part of Article 8 that had to do

with Road appropriation.

Voted that the sum of \$7,000.00 be appropriated for roads to be used in conjunction with the State Highway Commission under Chapter 81 of the General Laws.

Art. 41. To see if the Town will vote to pay one-third (1-3) of the cost of installing the new heater in the N. Y., N. H. & H. R. R. Station, or act in any manner relating thereto.

Voted that the Selectmen be instructed to send a letter of thanks to the N. Y., N. H. & H. R. R., for installing a new heater in the N. Y., N. H. & H. R. R. Station and explain to them that it would be impossible for the Town to pay one-third of the cost on account of its financial condition.

Art. 42. To see if the Town will vote to authorize the Assessors to use the balance in the Treasury, January 1, 1927, in making up their tax rate, or act in any manner relating thereto.

Voted that the Assessors be authorized to use the balance in the Treasury to the amount of \$20,644.52, which was the balance on hand January 1, 1927, in making up their tax rate.

Art. 43. That the Treasurer with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the municipal year beginning January 1, 1927, and to issue a note or notes therefor, payable within one year, any debts incurred under this vote to be paid from the revenue of said municipal year.

Voted that the Treasurer with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the municipal year beginning January 1, 1927, and to issue a note or notes therefor, payable within one year, any debts incurred under this vote to be paid from the revenue of said municipal year.

Art. 44. To grant money appropriated in the foregoing articles.

Voted to grant the sum of \$104,711.45 appropriated in the foregoing articles.

Voted to adjourn.

### Read Carefully

The new ruling of the Department of Vital Statistics requires that Physicians and Midwives shall within 48 hours give notice to the Town Clerk with such data as may be procured at the time, regardless of child's name if not known.

Parents shall give notice, with such other data as may be necessary, within 15 days from the date of birth. Do not depend upon the Physicians or Hospitals, but be sure yourself that the Towu Clerk is notified of the birth.

A fine of twenty-five dollars may be imposed for wilful

neglect in complying with the above rules.

The Town Clerk is required to record the exact date of return and to report all violations or neglect in making such reports.

Blanks will be furnished on application to the Town

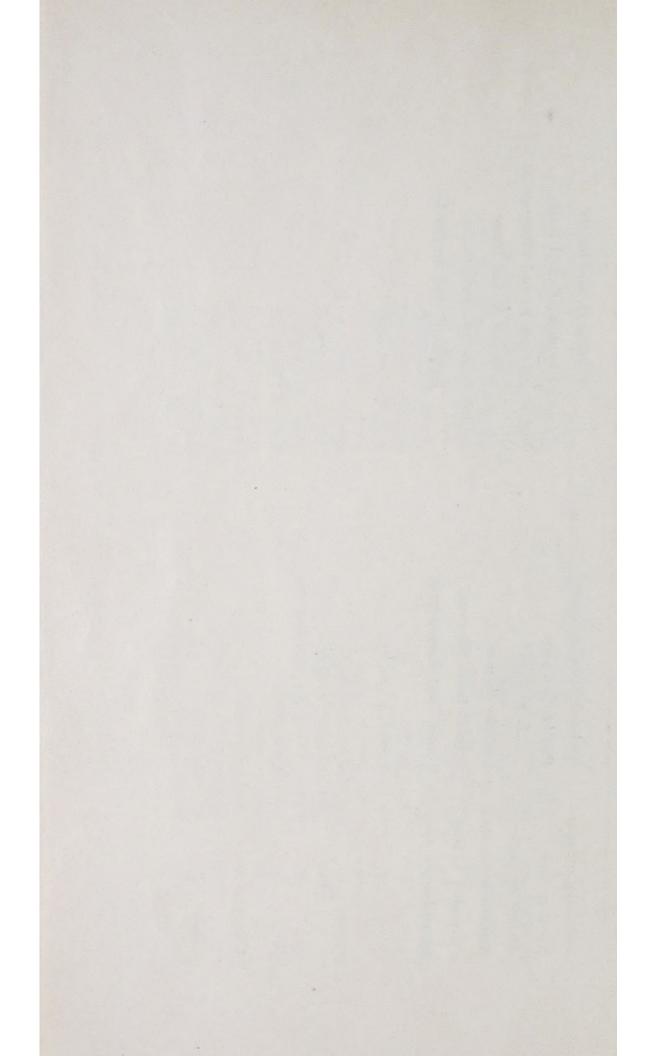

Clerk.

# Dean Street Appropriation

The following is the report of the Water Department on the Dean Street extension.

Bids were called for on the following specifications.

## TOWN OF MILLIS, MASS.

Water Department

Specifications for Laying Six Inch Main on Dean Street 1927

Sealed Proposals.—The Water Commissioners of Millis, Mass., will receive sealed proposals for laying a six inch cast iron Water Main about 1750 feet in length on Dean Street from Pleasant Street to the Norfolk line in said Town, until 5 o'clock July 15, 1927.

All proposals must be addressed to Charles LaCroix, Chairman of the Water Commissioners, Millis, Massachusetts. The Water Commissioners reserve the right to reject any or all bids or to accept any bid.

Contract.—The successful bidder will be required to execute a contract made with the Town of Millis, to carry out the terms of these specifications.

Work to be Performed.—The work to be done under these specifications consists in trenching, laying, back filling, supplying such tools and appliances necessary to lay this McWane Precalked Cast Iron Pipe and hydrants and fittings and gates, and also the doing of any other processes required to fully complete this work herein defined. All fittings, gates and hydrants are standard patterns and makes.

Crossing River.—There is a river to cross of about 80 feet in length. The pipe must be laid below the surface of the river bed so the ice or any other obstacles coming down the river will not come in contact with it.

In bidding on the work necessary to cross the river, bid so as to cover all the work required to complete this job, such as whatever excavation is required, laying of pipe, crossing and removal of rock, if any has to be removed. This bid must cover the completion of this part of the work and will not be figured in with the rest of the work when measured up, as we are figuring this as a separate job from the rest of the work.

Trenching, Laying and Back Filling. — The trench shall be dug to a depth of 5 feet and the pipe laid so as to be al least 4 feet below the surface of the road.

All pipes shall be cleaned of dirt or other material inside before being set in place.

If boulders or ledge are encountered in the trenching, in size of one half a cubic yard or over, they will be classed as rock work and paid for at a price per cubic yard. All other material and smaller boulders will be classed as ordi-

nary material under the unit price for trenching, laying, back filling, etc. All rock must be measured by the Water Commissioners to be allowed. All the necessary trenching to make connections with the water main on Pleasant Street must be made under the unit price for laying. After the pipe is laid, jointed, and tested, the back filling is to be done. The filling shall be puddled with water wherever it is possible. No rock over one cubic foot contents is to be placed in the trench, and all stone shall be surrounded by fine material when placed in trench. All surplus material must be removed after the work is completed.

Setting, Gates, Hydrants and Connections. The gates and hydrants required are to be set in place by the Contractor. Each gate is to have a gate box placed over the same properly centered and top lift at grade. Hydrants are to be set on flat stone with loose stone filling around base to point above drip.

The connection with the present line on Pleasant Street is to be made. All necessary work of connecting and taking care of any water in the trench must be taken care of by the contractor.

General Requirements,—The Contractor must supply all tools and apparatus required to fully complete the work herein defined. He must provide pumps and keep trench free of water if encountered at any time.

The Contractor must also guard and light his trenches at all times when necessary to protect travel on any street or way entered upon in the course of the prosecution of the work.

The work must be started, if possible, within ten days after the contract is awarded, and completed within thirty days after commencement.

Upon completion of the work the trench and pipe line

shall be kept in repair for sixty days after such completion by the Contractor, who shall make good all defects found in

his work during this period.

A reserve of 10% of all money due him on completion will be held for such sixty days and such reserve may be used by the town to repair trenches or other parts of the work which show defects during such sixty-day period if the Contractor fails or neglects to make repairs properly on due notification.

The pipe will be furnished and placed on the job by the Water Department of the Town of Millis.

Payments.—The work will be paid for under the speci-

fications as follows:

- 1. A price per linear foot for all pipe laid, measured in place after laying. Such price to include all trenching, laying and back filling, with all items of labor and material required to complete the work in accordance with these specifications, except as specifically named in the following:
  - 2. A price for setting each gate with box complete.
  - 3. A price for setting each hydrant complete.
- 4. A price for excavation rock in trench as provided in these specifications.

These prices shall include all charges for the work provided for herein and necessary to fully complete the same.

Quantities. The following quantities are given for comparison of bids only. They are in no way guaranteed and may be exceeded or diminished if necessary to complete the work.

Pipe laying — 1750 feet — 6 inch pipe.

River work - 80 feet.

Gates - 3 - 6 inch.

Hydrants - 2 - 6 inch.

Rock work - indefinite.

All proposals are to be on proposal blanks provided for that purpose.

CHARLES LACROIX,
LLOYD C. KING,
HIRAM LACROIX,
Water Commissioners, Millis, Mass.

#### PROPOSAL

For Laying Six Inch Water Main on Dean Street, Millis, Mass. 1927

Dated July 15, 1927.

The undersigned, Arthur DePasquale, of Milford, Mass., has duly examined the specifications and location for laying a six inch main on Dean Street, Millis, Mass., and acquainted himself with all details and contingencies affecting the work outlined thereunder and will take in full compensation for performing all work, furnishing all required material and tools the following sums:

For each and every foot of 6 inch pipe laid the sum of \$1.00 dollar (\$1.00).

For laying pipe across the river the sum of \$1.00 dollars (\$1.00).

For each and every 6 inch gate and box set the sum of Two Dollars (\$2.00).

For each and every hydrant set the sum of Ten Dollars (\$10.00).

For each cubic yard of rock work excavated from the trench as per specifications the sum of \$5.00 dollars (\$5.00).

Signed,

ARTHUR DEPASQUALE.

For each and every foot of 6 inch pipe laid the sum of Fifty-eight Cents (0.58)

For laying pipe across the river the sum of Four Hun-

dred Dollars (\$400.00).

For each and every 6 inch gate and box set the sum of Two Dollars (\$2.00).

For each and every hydrant set the sum of Eight Dollars

(\$8.00).

For each cubic yard of rock work excavated from the trench as per specifications the sum of Six Dollars (\$6.00).

Signed,

L. P. FEDERACO & CO.

For each and every foot of 6 inch pipe laid the sum of Sixty-Five Cents (\$0.65).

For laying pipe across the river the sum of Seventy-

five Dollars (\$75.00).

For each and every 6 inch gate and box set the sum of Eight Dollars (\$8.00).

For each and every hydrant set the sum of Eight Dollars (\$8.00).

For each cubic yard of rock work excavated from the trench as per specifications the sum of Ten Dollars (\$10.00).

It is understood that the Town is to furnish pipe, hydrants, gates, etc.

Signed.

THOMAS F. MALLOY.

Millis, Mass., July, 1927.

The Water Commissioners of the Town of Millis, having accepted the bid made by Thomas F. Malloy for the perform-

ance of all the conditions as specified in the proposais to which this is attached, it is agreed by and between said Malloy and said Water Commissioners acting for the Town of Millis, Massachusetts, as follows:

That the said Malloy agrees to carry out all the conditions mentioned in said proposals as to labor and materials, workmanship, etc., according to the terms and provisions of said proposals, all the work to be done in a good, workmanlike manner, satisfactory to said Water Commissioners; and the said Commissioners agree to make payments to said Malloy for the work and materials furnished as follows:

90% of the cost of labor and material when actually in the proportionate part of work completed, and the balance sixty days after the whole of the work is completed according to the terms hereof.

## THOMAS F. MALLOY,

Town appropriation	\$500	00	
Amount of vouchers	499	51	
Unexpended balance	0	49	
The appropriation was spent as follows:			
Planting of shade trees	870	58	
Trimming shade trees and cutting			
dead trees	193	31	
Cutting and burning brush	275		
Insurance		06	
Supplies	1111	22	
	1 1 2 7 2		

Eighteen maples were planted this year, all of which were alive this fall.

The dead trees are just about all taken care of now, but there is quite a lot of of trees that need some trimming and this will have to be done this next year. There is also brush that needs cutting but it had to be left until the next year.

I spent \$377.49 for brush out of the State allowance of \$3,800 as 10% of this is to be used for roadside brush.

LLOYD C. KING, Tree Warden.

JOHN F. SULLIVAN

To the Citizens of the Town of Millis:-

I herewith submit my report as Superintendent of Streets for 1927. I recommend an appropriation of \$9,500.00 for the year 1928, besides the State Grant.

I would recommend for special repairs out of this appropriation:— Plain Street, to be reshaped, gravelled and tarred, \$1,500.00; Parnell Street, reshaped and tarred, \$400.00; Irving Street, reshaped, gravelled and tarred, \$700.00; Union Street to be regraded between Curve and Exchange Streets for drainage purposes, \$500.00; the following streets for gravel and drainage, Island Road, \$200.00, Orchard, \$400.00, Spencer, \$300.00, Forest Road, \$300.00, Farm Street, \$500.00, Baltimore, \$300.00. The balance to be used for purchase of tar and general maintenance, acting in conjunction with the maintenance engineer of the State Highway Commission.

## REPORT OF PARK COMMISSIONERS

T.	Millis, Mass., Jan. 1	, 1928.
Town appropriation,		\$350.00
_		4000.00

Tr -p-action,		\$350.00
Expenditures		
William Hamm, for labor, Nesbit Clark, E. LaCroix & Son, Arthur Choate, L. C. King, Oak Grove Farm, Phipps Bros., Gravel, C. E. Simpson, General Work around Park, Edison Electric Illuminating Co., C. E. Simpson, cutting & burning bushes,	\$21.60 17.10 30.53 18.40 29.38 23.25 93.75 , 52.31 15.12	
Millis,	8.56	
\$3	50.00	\$350.00

We secured of C. E. Simpson & Son, 8 Seats for Park. Standards of them are of reinforced concrete. Seats and Backs are nearly all of oak. They are 16 feet long and we

think they are very good for the money.

We also bought of Chase Bros., 18 maple trees for Millis Park which are living and doing well. Money for Seats and Trees are from 1926 Appropriation. (See last year's Town Report).

C. E. SIMPSON, MARTHA E. PALOSKI, T. CHAPEL WRIGHT.

#### COURT CASE PENDING

The writ printed below was served on the Town of Millis about Dec. 13, 1927, it being an action of contract brought by Joseph Mellyn, to recover six hundred dollars for services as court reporter.

#### Commonwealth of Massachusetts.

Suffolk, ss.

To the Sheriffs of our several Counties, or their Deputies,

#### Greeting:

We command you to summon the inhabitants of the town of Millis, a municipal corporation duly organized by law and having its usual place of business in Millis, in the County of Norfolk, (if it may be found in your precinct) to appear before our Justices of our Superior Court, to be holden at Boston, within and for our said County of Suffolk, on the first Monday of February next. Then and there in our said court to answer unto Joseph F. Mellyn, of Boston, in said County of Suffolk, Plaintiff, for that whereas the said Plaintiff has commenced an action by writ dated the eighth day of September, A. D. 1927, which was made returnable to and entered in this Court on the first Monday of October. in said year, against Timothy J. McCarthy and Henry F. Peare, both of said Millis, to recover six hundred dollars, and whereas said Plaintiff has moved the Court for a new writ to issue to summon in said inhabitants of the town of Millis as Party defendant in the above action of said Joseph F. Mellyn versus Timothy J. McCarthy and Henry F. Peare. Now therefore this

writ is issued by order of court to summon in said inhabitants of the town of Millis, and make it and join it as Party defendant with said Timothy J. McCarthy and Henry F. Peare in an action of contract to the damage of the said Plaintiff (as he says) the sum of six hundred dollars, which shall then and there be made to appear with other due damages. And have you there this writ, with your doings therein.

Witness, Walter Perley Hall, Esquire, at Boston, the thirteenth day of December in the year of our Lord one thousand nine hundred and twenty-seven.

FRANCIS A. CAMPBELL,

A true copy, Attest:

Clerk.

EVERETT L. COLDWELL, Deputy Sheriff.

## RELEASE OF PARK LAND

The Selectmen have obtained a release from heirs of H. Millis of the land on the southerly side of Curve and Union Streets, and known as the Millis Park. Said land had been deeded to the town for park purposes only. By this release the town has the right now to sell any part or the whole of said property, or to develop it in any way the town may decide, with the authority of the State Legislature.

Respectfully submitted,

J. ALLEN COLE, ARTHUR CHOATE.

Selectmen.

Millis, Massachusetts.

Hon. Board of Selectmen and Citizens, Millis, Massachusetts.

#### Gentlemen:

Herewith we wish to present report of the Fire Department conditions as we have found them the past year.

Millis is fortunate to have had a year of exceptionally small fire loss; may it continue so for our mutual benefit.

Engine Co. #1, Millis, consists of fifteen members.

Hose Co. #2 Rockville, consists of ten members.

These companies are smaller than in past years but are doing the work even more efficiently than larger units have.

We have made a number of improvements this year where most needed and have several more either in process or to be done.

Hose wagon at Millis has had extensive changes made on it, and it is now a tender for Maxim Pumper.

This is a step ahead that much larger towns are doing to get apparatus ready for present day action.

May we say that payment for this work was arranged for between Fire Engineers and Maxim Motor Co. as follows, that \$300.00 be paid from this years appropriation, as per Financial report and balance due \$615.00 from 1928 appropriation.

This agreement was accepted by all concerned as the best interest for the Town as it was much cheaper to get one complete job done at one time.

We have had two out-of-town calls for aid and forty-

five town calls this year, a list of which we print.

Practice is held every two weeks in summer and through the winter every month at which we operate a Fire School at Millis.

We are asking in the Warrant for increase in salaries for Firemen from present \$5.00 to \$25.00 per year. The 75 cents per hour fire time to remain as at present. We are asking Engineers salaries be increased from \$25.00 to 50.00 per year. Fire Engineers do not receive any Fire time. The above small increases we believe are justified especially in Millis where the pay is much lower than any other town operating an efficient Fire Department.

In order to keep the Fire Department up to the standard that we wish and that the Town requires, we ask you for the sum of \$3,500.00 to maintain and \$500.00 for Hose next year.

Yours for service,

D. C. ADAMS, M. B. LaCROIX, O. C. POND

Engineers of Millis.

## REPORT

OF

## Sewer Commissioners

## Superintendent's Report

To the Sewer Commissioners of Millis:

This last year the sewer beds have taken a great deal more care than usual and also the expenditures of quite a lot more money. The filtration was so poor and the flow so great that it required a great deal more time to keep the system working and not have the banks of the beds give away. The beds being so full all of the time kept the banks soft and the danger of them washing away was present at all times up until July when I had to keep a pump there and pump some of the sewerage direct out into the swamp.

I was able to get all the beds but one dry this fall by using the pump and not having such a large flow to take care of. They have all been cleaned and plowed. The process of filtration is carried on much better than it was but it is not as it should be now. It can't be improved without spending some extra money.

I therefore recommend that two extra beds be built as the excavation is practically done, and this would take care of anything that might be added for quite awhile. Also the system is badly in need of a drainage ditch to carry the flow towards the river instead of having it spread around the swamp as it now does. The four beds of the present system should also be resurfaced.

Respectfully submitted,

LLOYD C. KING

Report examined and found correct.			
L. J. REARDON			
Auditor.			

The care of the sewer beds caused by their inability to handle the amount of sewerage thrown upon them this year cost more money than we had, and the willingness of the Selectmen to pay for this work out of their incidental department saved the Town the trouble of a special meeting. The situation is now more acute than it was a year ago, and in accordance with the estimate made by the Engineer will cost about \$20,000.00 to build two additional sewer beds, a drainage ditch and resurface the present beds. Any long postponement of this important work will add to the cost and might in time seriously effect the purity of our water supply.

Respectfully submitted,

E. F. RICHARDSON, H. H. THORNE, L. C. KING.

Following is a communication from the State Board of Health dealing with this situation.

July 19, 1927.

To Mr. Evan F. Richardson, Chairman, Sewer Commissioners, Millis, Massachusetts.

Dear Sir:

The Department of Public Health has considered your request for advice as to the improvement of the sewage disposal system of the town of Millis and has caused the works to be examined by one of its engineers.

The works at present consist of a settling tank, the upper part of which is used as a dosing tank, four filters having an aggregate area of about 0.75 of an acre, and

two small sludge beds. In order to determine the probable area of filters required for the proper disposal of all of the sewage of the town, the Department has caused estimates to be made of the total quantity of sewage collected by the sewerage system, including separate estimates of the quantity of sewage and waste discharged from the Cliquot Club ginger ale plant. From these estimates it appears that the quantity of sewage conveyed to the disposal works during the early part of the year amounted on an average to about 110,000 gallons per day. The quantity of waste from the washing of bottles at the ginger ale plant, including the sewage, apparently varies from 50,000 to about 75,000 gallons per working day, the maximum rate amounting to about 280,000 gallons per 24 hours. An examination of these wastes shows that the water used in washing new bottles is not objectionable, and if it were practicable to keep this water separate from the sewage and the other wastes it might be discharged into the brook near the plant without causing objectionable conditions or affecting the water supply of the town of Millis. If it is practicable to remove this cleaner water from the sewers the quantity of sewage requiring disposal could be somewhat reduced.

The examinations of the sewage disposal works show that a large part of the sewage overflows without treatment and that additional filters are necessary in order to care for all of the sewage collected in the present sewerage system. The additional area of filters required at the present time is about one acre, but this amount might be reduced somewhat if a reduction is effected in the quantity of waste discharged from the ginger ale plant.

The Department recommends that additional filters be

provided at the earliest practicable time in order to prevent further pollution of the Charles River and its tributaries, especially since the discharge of unpurified sewage into the Charles River or its tributaries in this region is contrary to existing laws. As soon as plans are available for additional filters the Department will be pleased to advise you concerning them, if you so request.

Respectfully,

GEORGE H. BIGELOW, M. D. Commissioner of Public Health.

## REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committe and Citizens of Millis:

Below is presented the annual report of our school system. Especially is attention called to its needs as outlined later.

#### Teachers

This report would be incomplete without giving credit to those who make our system a success — the teachers.

Although every teacher is carrying a full program of regular work; although some of them are carrying on outside educational activities; although the high school teachers are teaching a greater number of subjects than we find in the average American high school; yet, we find them doing their best to produce good results.

Such willing service under rather difficult working conditions can be appreciated only after one has made several visits to the class rooms. You who are citizens of Millis are urged to go to our schools often enough to see for yourselves exactly what we are doing and how we are doing it. We need your help in settling many of our problems.

Throughout the United States, and in Massachusetts especially, the last few years have seen attempts to improve the teacher's ability to teach. A longer period of preparation in the normal schools or colleges has been required. More subjects that fit a person to teach have been demanded of a prospective teacher. More careful study of the special branch of teaching to be taken up is being insisted upon by those who employ

teachers. Continued study of educational problems while one is actually teaching has been found necessary if a teacher is to keep educationally awake. Most of our personnel have measured up well to these items. Each year our new teachers are chosen from those who have received normal school or college training (or the equivalent in the case of special teachers). Each year more care is used in picking out teachers to fit the work they are to perform. Each year many of our teachers spend time and money to take courses at the various colleges and normal schools, or in extension departments, so that they can do a better job. Wherever we find persons who show no willingness to make a careful study of the big task of teaching we plan as soon as possible to replace such by more competent instructors. In this way, we feel that we are giving the best service to our boys, our girls, and our Town.

#### Health

How to get well is our first thought when sick. The schools believe we ought to think more about how to stay well when sickness is far away. For such reasons, the State requires the employment of school physicians and nurses. Millis is co-operating very well in this matter. Our school physician stands ready to care for serious health problems as they arise. Every morning during the school year our nurse visits the buildings. She watches carefully for symptoms of disease and when any appear works with the parents and physicians to stop its spreading.

But this is only one part of her duties. With the help of each teacher, she plans to train each child in those health habits that he needs to keep him in fit condition throughout his entire life. She is trying to build an engine that will run for three score and ten years. Clean minds and clean bodies (inside and out) are the tasks of the home, and the church, the school, and the community.

A well-planned health program in any community should consist of the following steps:

- 1. A thorough physical examination for each child by a competent doctor at least once a year.
- Periodic testing of the general health conditions of each child by the school nurse; such as, testing of eyes and ears, weighing and measuring, and the like.
- Periodic inspection of pupils to check their health habits; such as, eating, drinking, sleeping, cleanliness, and others.
- 4. Talks to pupils, teachers, and parents about the fundamental health habits that each of us should practice.
- Holding clinics from time to time for the purpose of cleaning up poor health conditions; such as, underweight, adenoids and tonsils, and defective teeth.
- Home visits by the nurse to help home and school overcome the physical conditions that sometimes hold the pupils back in their school work.

Many additional health activities are possible. The

more efficiently such a program is organized the better are the results and the wider the field covered.

### The Course of Study

The entire United States is taking account of stock in its schools. Just as the ox-cart and stage-coach are out-of-date, so have many things formerly taught in our schools had to give way to more modern ideas. Before throwing away the old material educators feel that we should study our present-day needs, decide what modern society must use, and then plan our education to fit.

The teachers of this Union have begun to follow out the nation-wide plan, whereby educators in each community will band together into committees to make a survey of their needs and will then choose the subject-matter best suited to such needs. Committees have met to organize such survey and study here. The results will in time improve the subject-matter, methods, and results in each school.

#### Athletics

Athletics has been very successful during the past few years. In several ways excellent gains have been made in this part of our school activities.

The employment of a teacher-coach has brought together under one head a great many types of sport for the boys. For the girls, the same kind of development is under way.

Cleaner playing is one of the most striking gains shown under this system. Harder playing has brought

victories to the teams. More team playing has resulted in building up an all-round set of athletes. Greater use of class teams has developed bigger squads of available team material. Better support of the teams by pupils, teachers, School Committee, and Townspeople has brought about an unusual spirit of co-operation in this branch of school activities.

When thus carried out athletics is one of the most valuable parts of our modern plan to give every boy and girl an all-round education.

#### Physical Education

Closely related to Health and Athletics is Physical Education. In a small way, we are living up to the State Law requiring some kind of physical training. Simple exercises and posture drills for the younger children are followed in later grades by exercises to develop the larger muscles. These in turn give place to exercises and games that seek to give greater muscular control and develop a high degree of skill.

Mr. Schrader, State Supervisor of Physical Education, in a talk at the teachers' reception in September pleaded most eloquently and forcefully for a more definite plan of physical education, one scientifically organized to include the needs of all groups in our twelve grades. The many favorable comments on his talk lead us to believe that Millis is about ready to stand financially back of such a program.

#### Our Needs

Our needs this year are very similar to those found

in every well-ordered home or business — replacements, improvements, and additions.

Replacements of books, supplies, and equipment run about the same as in the past.

Improvements needed are largely in the Adams School. Before long some attention must be paid to its renovation. Better blackboards, improved toilet ventilation, increased lighting through improved window shades: these are some things to be considered. In several other ways this building and the high school building could be made attractive and serviceable.

Additions mentioned below are only such as will make for greater school efficiency.

Our first and most important need is additional space for classes and school activities. The ideal plan would be the erection of a wing to the present high school building. Such a move would take care of several other needs at the same time. It would help us better to take care of an improved physical education program. It would aid us greatly in the matter of school assemblies. It would provide more pleasant and more sanitary lunch room facilities, both in the matter of food preparation and service and in the amount and quality of seating. At the present time, we are holding several small classes in a little-used corridor. This should only be a very temporary arrangement as it is contrary to a rigid interpretation of State building regulations.

Another important need is the addition of one more teacher to the high school faculty. Today, our teachers are handling more subjects and classes than the average high school. This means that we are skimping in the time and effort given to our boys and girls. They are the ones who will make the sacrifice to crowded conditions. And additional teachers allows more individual attention to each pupil, allows more preparation for each subject, allows better teaching and produces greater results.

Still other additions that will help our work are the following:

- A school library containing helpful recreational books, volumes that will supplement the work given in every subject studied, and books and magazines on general informational topics that will help to give our boys and girls greater knowledge of every day activities in the world about them.
- Additional equipment for the science department. This department is now crowded into
  one small room with such limited facilities that
  all the pupils can not perform the experiments
  they ought to carry out.

#### Tables

Below are given a series of tables to show some of the main facts about our schools.

Respectfully submitted,

A. HOWARD WILLIAMSON.

## REPORT OF PRINCIPAL

To the Superintendent of Schools of Millis:

In accordance with custom, I am pleased to submit herewith my annual report.

The school in all departments has been running smoothly this year. The Junior-Senior High School System that was introduced last year is functioning satisfactorily, and showing itself more and more efficient as time goes on. There is noticeable good feeling and an interest necessary for the best results between teachers and pupils.

The school is in class A, and everything is being done to make it a high grade class A school. It has been called to our attention that in some cases too much home work has been assigned. This may be true in a few instances, but not as a rule. The requirements in the higher institutions of learning have been increased in recent years, and in order to meet these requirements it is necessary to cover more ground than formerly, and to mark more closely. We wish to have every girl and boy cover the work prescribed by the high school courses of study. Thus, only, may we maintain the high standard desirable.

This fall, at a union teachers' meeting held in Medfield, it was recommended that the Union prepare a course of study, uniform for the four towns, to meet its own needs. A committee was appointed, and said committee assigned a subject to each town in the Union, with the intention that the town should decide just what work in the subject assigned to it should be covered in each

grade and through the Junior-Senior High School. The assignments were made as follows:

Medfield English
Millis History
Norfolk Geography
Westwood Mathematics

This course of study, when completed, ought to be a valuable guide to the teachers.

Last year our highest enrollment for the four upper grades was eighty pupils, and every seat upstairs then was occupied. This year ninety-four pupils enrolled for these four grades in September. Two pupils left school and two more came to us to keep our enrollment at the same number. Needless to say, we are laboring under crowded conditions. Our seating arrangement is inadequate and, with a few more classes and a greater number in most of the classes this year, our recitation room is inadequate. Our extra class-room need is partially overcome by utilizing a part of the hallway beside the sixth grade room. A blackboard and several armchairs furnish this class-room.

17

TOTAL ENROLLMENT, SCHOOL YEAR 1915-16 TO JAN. 1, 1928.

School Year	Elementary School Grades 1–8	School	High School Grades 9-10-11-1	Enroll- ment	Census
1915–16	197	58	64	319	1442
1916-17	179	46	59		1442
1917-18	209	68		284	
1918-19	193		63	339	
	193	73	61	327	
		Grades			
1919-20	235	1-2-3	-		
1920-21		23	68	326	
	237	41	65	343	1485

1924-25	283	21	67	371	
1925-26	291	23	65		4 500
1926-27	300	24		379	1791
1927-28	278		81	405	
A STATE OF THE STA		23	96	397	
Increase	24.2%	0	30%	24.73%	24.2%

Note: In trying to make a fair comparison to show, on a percentage basis, the growth of our school and the population of our town, I have used the first three years of the table (1915–18), and the last three years (1925–Jan. 1928).

From this table it may be seen that while the enrollment of the elementary grades is increasing at the same rate as the population of the town, the high school enrollment is increasing more rapidly, that is, more pupils are staying in high school, rather than dropping out or going elsewhere, than formerly. It is reasonable to suppose that the enrollment will continue to increase, and the problem of room will have to be solved before long.

The Senior class is larger than any Senior class pre-

viously enrolled in Millis High School.

#### Reported by Seniors on Dec. 23, 1927:

		Decided	Undecided
То	College	. 7	2
	Technical School		0
44	Business School	. 6	2
44	Normal School	. 3	1
2.6	Nurses' Training School	01 1	0
44	Physical Ed. School	. 1	0
		-	
	Total	22	5

This shows that our school probably will be represented in several institutions next fall.

The Senior class, under the direction of our English teacher, Miss Martinson, presented "Ann What's Her Name?" to a large audience.

The operetta, "The Belle of Barcelona," staged by our music teacher, Miss Cole, was presented two nights, as the sale of tickets warranted the extra evening's performance. The proceeds were used to purchase a new piano for the high school. The old piano is used in the grades. The addition of the new piano makes

it possible for all the grades in the high school building

to study music with accompaniment,

An exhibition of school work of all grades was held in May. Each room, with the pupils' work displayed, was open for inspection for two afternoons and one evening. There also was an art exhibit, one by Miss Honen's Cooking Club, and one by Miss Ehnes' Sewing Club. In the evening the teachers were in their rooms to receive visitors. The Cooking and Sewing Clubs presented a program. Mrs. Wambolt and Miss Elinore Cole planned a Health Pageant, consisting of a health play from each grade, for the second afternoon; this was postponed for two weeks because of weather.

On November 11, Miss Elinore Cole, assisted by the Glee Club, presented a cabaret entertainment for the benefit of the Vermont flood sufferers. Twenty-six dollars and ninety cents was sent to Vermont, and a very courteous letter was received from the Governor

of Vermont, thanking us for same.

Miss Ehnes and Miss Honen started their sewing and cooking clubs early in the fall. The classes are held one afternoon a week after school. A full description of both courses was included in our report last year. All of the twenty-three girls enrolled in the clubs completed their requirements, and received their pins from the Norfolk County Agricultural School last year. This work is absolutely voluntary on the part of both teachers and pupils. We hope the parents will encourage this work, because we think in time a domestic science course, including both cooking and sewing, should be a part of our regular course of study.

Our baseball team had a successful season and ended

in second place in the Tri-County League.

Arrangements were made to use Snow's Hall for basketball last year, and the same arrangement makes it possible for our school to have a basketball team this year. This is expensive, and it is difficult to play a regular schedule in a hall that is used so often for public activities. However, we made the best of our conditions and had as large a group practicing as possible. The boys used the hall immediately after school, and then the girls held their practice, the idea being to give all an opportunity to learn the game, to have a winter sport and to create interest and school spirit. Considering it was our first season, the results were very encouraging. Most teams we played were fortunate in having gymnasiums in connection with their schools. As our school is growing steadily, we hope we can have a gymnasium here.

Last fall, as a year ago, Millis has been very prominent in its major sport, football. We were defeated this year only by a heavier and stronger team in Hopkinton. We are pleased to state that accidents were very few and of a minor nature in all cases. There are two good reasons for this. First, our committee has equipped the players to protect them from injury as far as possible to do so. Second, our coach, Mr. Daly, conditioned the boys early in the season and did his best to keep them in first class condition throughout the season. It is gratifying to those interested in this sport to know that teams in larger schools, such as Milford, Westboro, Marlboro and Franklin, wish to put Millis on their schedule for 1928.

A banquet and general celebration marked the closing of a successful season last fall, and the same plan will be carried out this year. In the latter part of June a general celebration was held in the Grange Hall to recognize both boys and girls in the different sports of the school. Letters were awarded and a social evening followed. We think this was a good step and in accordance with a policy that will be followed up to promote loyalty, interest in athletics and school spirit.

Last spring our school had the pleasure of entertaining the other schools in the Tri-County League at Millis for the annual track meet. The final count gave our boys second place in the meet. The girls were proud to win first honors and the girls' silver cup. Evelyn Lindahl succeeded in taking first place in several events.

An athletic association has been formed from the four upper classes of the high school this year. All girls and boys of those classes are encouraged to join. The object of the Association is to organize and promote athletics. The Athletic Association chooses a manager for each team, who, among other duties, arranges the games for the next season. The Association has charge of organized cheering at the games. It is the duty of the Association, also, to promote other activities, such as, to given entertainments by means of which money may be raised for the needs of athletics. While the school can be represented on the ball-field by only 5, 9 or 11 men, by means of an athletic association it is represented on the sidelines by all the pupils. They feel that the team is their team, and a greater interest in athletics is developed. An athletic association also is helpful in training girls and boys to take responsibility.

We noticed that a number of parents visited school for Christmas exercises. This is encouraging to the teachers, and we wish that more parents would visit school, not only for special occasions, but during regular session.

I wish to thank the superintendent, the school committee and the teachers for their excellent co-operation in making the school year a success.

Respectfully submitted,
CLYDE F. BROWN,
Principal.

## REPORT OF THE SUPERVISOR OF DRAWING

Mr. A. Howard Williamson, Superintendent of Schools

Dear Mr. Williamson:

During the first quarter, or from September to Christmas, we have been striving to have the grades express themselves through the medium of crayons, paints and pencils — representational work. By calling attention to objects and laws of nature, the memory and visual powers are gradually strengthened. A brief of the grades is as follows:

- Grade I Familiarity of common objects as house, stone, tree; animals and people. Particular stress is laid upon children expressing themselves in this grade. Love of drawing and desire to create will inevitably follow.
- Grade II Similar to Grade I with more advanced steps combining of one familiar object with another.
- Grade III A step further along, combining several familiar objects.
- Grade IV Much time spent on study of big proportions of human figure.
- Grades V & VI Study of human figure in more detail and VI with new medium as well.

- Grade VII Free expression and calling of attention to good parts and speaking of improvements to help it. Study of big shapes in black and white or silhouette.
- Grade VIII Poster study in black and white for human figure and lettering. Monograms and stencil work to aid printing.
- Grade IX High School Poster study figures in decided action. Plain printing and its carrying powers. Simple objects sketched in pencil. Pencil study technique. Block printing its use how to make it necessity of appropriate designs simple and bold. The following quarter will be devoted primarily to design, the Laws of Design as found in Nature and their application to the business world and every day use. Holiday work gives an opportunity for constructional work and handling of materials and following of directions.

I hope this report will give a general idea of what we

are doing.

Very respectfully,

PHYLLIS RANDLE

## REPORT OF MUSIC SUPERVISOR

To the Superintendent of Schools of Millis:

It is again my privilege to submit my report on the work on music in the Millis Schools.

The aim of the music course continues to be that of fostering a love for music and encouraging self-expression through that delightful medium, song. Every song presented to a child, regardless of his age, must have some appeal, first through the subject of the poem, second through the rhythm, and last, and by no means least, its melody. Of course, every song does not appeal to every child, but there is no child that cannot be reached by at least one of the many varieties of songs presented him.

The present tendency among the upper classes is toward the popular and jazz types of music. This is of course only another development of the modern age, and while not to be developed greatly in school, must be given consideration and careful guidance.

The newest and best books of school music are in the hands of our pupils. A new set has been purchased for the fifth grade; new books are supplementing the once inadequate supply in grade three; and new books have been introduced at Rockville. At present we are considering a new volume for use in the Junior High School which may be used also in the Senior High School for recreational singing.

The Girls' Glee Club in the Senior High School is a recognized factor in the development of our school work. The present organization consists of forty enthusiastic girls who demonstrate their willingness and

ability to co-operate in every project suggested. Through their efforts in presenting an operetta last year, sufficient funds were raised to provide a new piano for the High School. They are also among the first to offer their time and energy for philanthropic needs. Of course their efforts in these directions would be useless but for the splendid support they always receive from the townspeople.

Another lively organization is our fifth and sixth grade Glee Club. This group of boys and girls meets every week during a study period and works on songs that have proven difficult in their regular assignment. In addition, they learn by rote a few interesting songs selected from books not included in their daily work.

As for our plans for the new year — a Junior High School Girls' Glee Club, an orchestra, a more detailed course in music appreciation, and of course, an operetta, are included, depending on our time, equipment and most important of all, our other student activities.

Respectfully submitted,
ELINORE E. COLE

## REPORT OF PHYSICIAN

To the Superintendent of Schools of Millis:

During the school year of 1926-1927 there were no epidemics of contagious diseases and few, if any, isolated cases. Attendance records, as a whole, showed relatively few absences from illness.

The problem of underweight seems to be of most importance and in a majority of cases improvement has been noted. This condition seems to have but little bearing upon the grades of those who are in the upper classes; a check-up showing that the average ages of those of normal weight were about the same as those who were below normal weight.

Second to underweight the condition of the teeth and throat attracted most attention.

Care of the teeth, during school age, was suggested with the idea of preventing more serious conditions in later life and to insure normal development.

Attention was called to throat conditions only where there was evidence of obstruction to breathing or where fairly definite indications of infection were present.

There were some cases of poor posture but these appeared to be more or less a matter of habit and training and it is hoped that they will be improved by suggestion of correct exercises.

FRANK J. PIPER, M. D.

#### REPORT OF SCHOOL NURSE

To the Superintendent of Schools:

The health of the school children has been exceptionally good this last year, with no contagious diseases and very little other sickness, therefore the attendance has been excellent.

The Attendance Banner was won by Grade IV in September, Grade III in October and November, and Grade V in December, each having a high percentage. The Modern Health Crusade work is going on as usual.

The Health Banner was won by Grades II and VIII

throughout the year.

Two hundred seventy-eight home visits were made during the year, and at this time I would like to thank the parents for their hearty co-operation in helping to make this a very successful year.

The Pre-School Clinics are being held on the third Tuesday of each month as usual and are well attended.

The State Department of Public Health sent out some very interesting pamphlets on various Health subjects, which were given to the children to take home.

All pupils had eyes and ears examined as required by the State, and notices sent to parents when defects were found.

Two boys were sent to Norfolk County Hospital Camp, one boy for eight weeks, and one for sixteen weeks; both returned to school this fall in much better health.

1983 cups of cocoa were served at noon during January, February, March, April, November and December, and 3440 bottles of milk were served at morning recess.

After many postponements we held our Health May Day on May 31, in the Town Park, and it was a decided success.

The prizes (for the underweight children who gained the most while we served the milk) were awarded to Eleanor McCarthy, Gr. VII; Milton Bailey, Gr. VI; Shirley King, Gr. III; and Carter Wells, Gr. I.

We have two boys in hospitals, one in Norfolk County, and one in Pittsfield, both getting along very nicely.

Respectfully submitted,

JEAN S. WAMBOLT

### REPORT OF ATHLETIC INSTRUCTOR

To the Superintendent of Schools of Millis:

The object of athletics, as carried on in Millis High School, is to have as many boys and girls as possible actively participating in the sports, whether it be Football, Basketball. Baseball or Track for the boys or Basketball, Baseball or Track for the girls. As coach of the teams it has been my policy to first, instill into the boys all the enthusiasm and interest which is so essential in the playing of their games, which are indeed only stepping stones for their future lives - the experience they receive helping greatly in their efforts to overcome problems which will confront them when they get out of school; - second, to teach them to play the game as true sportsmen - that is, to be a man who plays the game of life in a spirit of magnanimity, who scorns to take advantage of a technicality, who uses his superior strength to help and not oppress, whose mind is set less upon success than upon honor, and whose measure of success is the value of the contribution he can make to life rather than the rewards that he may win for himself; and third, to give the boys an idea of the responsibility of their positions as representatives of the school - a responsibility they will have to carry through life, no matter what their occupation is.

To successfully conduct athletics in any form, cooperation is the essential thing. The coach must cooperate with the players, working with them all the time; the players, in their turn, must obey their coach's instructions, and work for him to the best of their ability. It was from outside of school, however, where the biggest help in the form of financial backing and general all-around interest was received, and I wish to thank the school committee and all the citizens of Millis for their part in promoting a successful football season, the success of which was determined by the co-operation I received in my efforts to teach the boys the game.

Those who participated in this sport throughout the season are:

John Wight Jake Warsofsky Max Talent Joseph Novick Joseph Nathanson Royden Barrett Howard Norcross Robert McDonough Richard Congdon George Karoughlanian Simon Novick Henry Cassidy Wesley Frink Wendell Burtt Robert Thorne Wilfred Duhamel Joseph Clewes James Moran Stedman Congdon Thomas Clancy Herbert Smith Manager, William Esselen The 1928 basketball season got under way soon after Thanksgiving — Snow's Hall being used for conducting the practices. The success of a basketball team is determined by the amount of co-ordination the individual players have, and the ability of these players to work together as a unit, rather than individuals. The team play is accomplished by the players denying themselves their customary privileges, so that they can practice, and it is only through constant practice that this unified team play can be obtained, and on which the success of the season can be based.

#### Those participating in this sport are:

John Wight
Max Talent
Robert McDonough
Wilfred Duhamel
Joseph Nathanson
Joseph Novick

John Hinman Simon Novick William Hinman Francis Bakunas Elmer Wambolt Jake Warsofsky

Richard Congdon

Those who participated in the 1927 baseball season are:

Max Talent Robert McDonough John Wight Wilfred Duhamel Leo Braun George Karoghlanian Solomon Wasserman Royden Barrett Joseph Nathanson Wesley Frink

Herbert Smith

Those who participated in the Boys' Track are:

Robert McDonough John Wight Max Talent

Jake Warsofsky Elmer Jillson James Moran

As yet little can be said in the way of predicting the kind of basketball season the girls will have, but the spirit and interest they put into the game will give them a training and experience, the good of which will more than compensate for the time put in. The old idea was that women should train for motherhood by remaining on the sidelines watching the men participate in their game, and any act by a young woman to take part in any athletic encounter was met with horrified indignation from her parents; but today we are glad to say that this idea no longer prevails, and that all women's athletics are met with approval by everybody, and the sporting world now includes their activities. This has been done to encourage girls to take part in all kinds of physical competition, which will train them to be better equipped to carry on the object which all our ancestors have tried to do - have these young women be the mothers of a generation better by far than any of its predecessors.

Those taking part in 1927 Girls' Basketball are:

Ruby Trawick Mildred Smith Helen Wight Wilmae Woodmansee Helen Sullivan

Evelyn Lindahl
Edna Smith
Ethel Talent
Katherine Collins
Marie Harcovitz

Jennie Nathanson

Those taking part in 1927 Girls' Track Season are:

Alice Harcovitz Ethel Talent Evelyn Lindahl Mary Pais

For the following reasons then, I am emphatically in favor of carrying on athletics as they are carried on in our schools and colleges today. That a keen, active mind be formed in a strong, virile body; that impulse be tempered by reason, and self-expression restricted by law; that measurements not of one's own making be recognized and accepted at their proper values; that the courteous word and chivalrous deed be present even in the heat of combat, the flush of victory or the sting of defeat; that in the atmosphere of the classroom these same ennobling principles, finding a fuller field for operation may result in the most perfect development of manhood and womanhood — and athlete and a scholar.

Respectfully submitted.

JOHN J. DALY

### SCHOOL NOTES

The School Committee holds its regular meeting the last Friday in the month at 7.00 P. M., in the office of the High School Building. Parents are invited to meet the Committee at any of its meetings to confer on any school matters or pupils' problems.

During 1926 the Committee held 8 regular and 8 special meetings.

Richard H. Downing, Chairman, attended 15 meetings.
Rudolph F. King "16 meetings.
William B. Esselen "16 meetings.
Theodore W. King, Superintendent "6 meetings.
A. Howard Williamson, "4 meetings.
Clyde F. Brown, Principal "10 meetings.

The Committe refers to the departmental reports for details of our school activities and academic work and statistics. We believe all citizens will find these reports of interest.

As far as funds would allow, we have continued the conditions of our school buildings. All the desks and policy of the past two years, of improving the physical chairs in Room 1 of the High School Building have been replaced with modern equipment of the latest type—the desks in Room 4 have been repaired and put in proper condition. During the summer the walls of all class rooms were washed, and all desks and chairs washed and shellacked. The wooden platform's and steps to the Adams School have been replaced with concrete.

At the meeting of the Union, of which we are a part, it was voted to increase the amount of money paid by the Union for the School Superintendent and after several meetings and a thorough search for the right man, the Union elected Mr. A. Howard Williamson as superintendent for three years. Your committee feels we are fortunate, indeed, to have been able to obtain the services of a man of Mr. Williamson's caliber. While he has been with us only since the first of September we find his policies are already showing results and we look for a steady improvement in the value of our schools to our community under his guidance.

The increase in the size of classes in the High School Building has overflowed the normal capacity of this building. We have handled this condition, temporarily, by improvising a class room in one of the halls. Mr. Brown, at the request of the Committee, has compiled carefully and very completely, figures showing what may be expected as the natural growth of our school population of the High School Building. These figures indicate that the building of the new wing to this building can be put off for about three years, provided the town will appropriate enough money to allow the changing of what is now the office and teachers' room into a class room. This improvement will cost not over \$1600 and we are asking for this special appropriation this year.

The Committee wish to express their appreciation to the Superintendent, the Principal, the Teachers, Nurse, Coach, the Janitor and to the Citizens of Millis for their

co-operation and enthusiastic support.

In making up our recommendation for the appropriation for the coming year, we wish to call the attention of the Citizens of Millis to the cost, per pupil, for educational purposes. The statistics of the State Board of Education shows that the average cost, per pupil, for the whole state in towns of less than 5,000 inhabitants is \$91.97. The average cost, per pupil, in the Millis Schools will be \$89.20 if our recommendations are carried out.

Our recommendations, in detail, are as	follows:
Supervision and control	970 50
Salaries Text Books	22 790 00
Text Books	
Supplies	800.00
Supplies	800.00
Janitors	1,760.00
paris	500.00
- Equipment	500.00
Transportation	2,800.00
Fuel	
Health	1,200.00
Miscellaneous	1,000.00
Miscellaneous	250.00
Titlleties	500.00
Unpaid Bills	850.00
Total\$3	4,610.50

Respectfully submitted,

School Committee,

RICHARD F. DOWNING, Chairman RUDOLPH F. KING WILLIAM B. ESSELEN
